# Impact

## **Impact of Discontinuation of Sentence to Service (STS) Program**

- No structured, supervised worksite for juvenile and adult accountability
- Limited community service sites for adults and zero community service work sites for youth due to liability concerns
- Longer incarceration for those eligible.

Restorative justice principle: **“Repairing harm through meaningful contribution to the community”**

- STS provides safe, skill-building, and reparative opportunities aligned with restorative practices

# Lasting Consequences

---

## **Adult Offenders:**

- Default consequences: serve jail time
- Removes opportunity for community accountability and skill-building
- Disproportionately impacts low-income individuals

## **Juvenile Offenders:**

- No meaningful accountability options
- No community service sites willing to accept youth
- Alternatives: financial penalties, which are rarely developmentally appropriate or effective and often inequitable or potential out of home placement
- When accountability is not meaningful or accessible, criminal behavior may persist or escalate
- Elevated risk of out-of-home placement for youth — including detention, residential treatment, or correctional facilities
- Out-of-home placement is significantly more costly than local, restorative alternatives

# Lasting Consequences

---

## **Restorative Practices Undermined:**

- No space for youth or adults to **“make things right”** through work or service
- Unable to repair harm in a way that fosters responsibility, connection, and personal growth
- Moves away from rehabilitation and reparation — toward punitive-only responses
- Lost opportunity for early intervention, community connection, and long-term behavior change
- Loss of structure, mentorship, and restorative engagement

**STS provides a structured, supported pathway to restoration**

\*Fall work will be performed by Hwy Maint. Workers. Overtime will be incurred on weekends.

# Options Moving Forward

1

**Goodhue County creates STS Program** to fall under the Court Services.

2

**Increase Public Works FTE's** to complete the necessary work.

3

**Outsource** the work that needs to be completed.

# Option 1: Court Services Staffing Structure

---

## 1.0 FTE position will be split between two critical roles:

- 50% STS Coordinator: Manages referrals, tracks compliance, and coordinates placements with adult and juvenile participants. Serves as the primary liaison between the courts, probation, and partner agencies.
- 50% Case Aide: Supports over 400 administrative supervision cases by handling scheduling, data entry, and client communication and compliance.

## Two - 1.0 FTE positions for Crew Leaders

To ensure accessibility, two full-time STS Crew Leaders will supervise work crews seven days a week, including weekends—providing flexible options for working adults and youth who attend school.

This structure promotes restorative accountability while accommodating real-life schedules.

\* this option provides crew members in addition to the 3 FTE's to perform the work.
