

September 2021

Dear Southeastern Minnesota Resident:

This is your opportunity to help improve the health of your community!

Freeborn, Mower and Goodhue Counties, in partnership with Mayo Clinic Health System, are conducting the 2021 Community Health Needs Assessment Survey. Your household has been randomly selected to participate.

This survey helps us gather information to complete an in-depth assessment of our community's health and determine how to direct resources in the future. This information is used by many organizations including local counties and Mayo Clinic Health System to design programs to support community health and wellness.

Participation in this survey is completely voluntary. All answers to the questions are strictly confidential and no identifying information will be linked to any of the responses. We do track which surveys have been completed through the identifying number on each survey. This allows us to remove addresses from the mailing list for reminder notices once we receive the completed survey.

Only a limited number of randomly selected addresses are receiving this mailing. The study will be more meaningful if someone from your household completes the survey and mails it back. In order to get a mix of the population, **please give the survey to the ADULT (age 18 or older) in your household who has most recently had a birthday.** Please complete the enclosed survey form and return it in the postage-paid envelope provided.

By completing this survey, your household will make a valuable contribution to improving the health of people living in your community. If you have any questions, please contact: Sue Yost – Freeborn County (507-377-5273), Megan Roschen – Goodhue County (651-385-6140), Chris Weis – Mower County (507-437-9701), or Ilaya Hopkins – Mayo Clinic (507-266-4536).

Thank you very much for your participation.

Sincerely,

van MU
