On-call Stipend for Social Services Child and Family Supervisors

Nina Arneson brought forth the proposal to add a \$300 per week on-call stipend for supervisor on the child and family social work team due to the amount of time they are on-call, limiting their freedom outside of regular business hours.

*Commissioners Anderson supported the proposal until there is a better option.
Commissioner Betcher supported the proposal and agreed that HHS should continue to research other options. HHS staff committed to discuss regionally and with HR to explore other solutions.*
