PUBLIC WORKS DIRECTOR’S REPORTS

Request to Proceed with Planned Park Projects. County Engineer, Jess Greenwood, stated that the Goodhue County Parks, Trails, and Recreation Advisory Board met on June 16, 2026, and requested the board proceed with several high priority park projects that had been previously removed from the capital plan. At this time there were several outstanding questions related to the information. Staff recommended the topic go to a Committee of the Whole for additional discussion.

C/Betcher agreed that a Committee of the Whole on the issue was warranted. She wanted to see this request considered as part of the overall budget process moving forward.

C/Anderson noted that these items have been voted on previously and should move forward. C/Flanders and C/Greseth agreed.

Administrator Arneson pointed out that if the board was planning to move forward with these items today, it would be beneficial to look at a design-build option for the host sites to gain efficiency. Mr. Greenwood agreed.

C/Flanders clarified that this was money that was already approved and no additional funds would be required from the 2027 budget. Mr. Greenwood agreed.
